EDUCATION

Texas A&M University
Bachelor of Arts in Computing
College of Engineering

College Station, Texas
May 2024
GPA: 3.94/4.00

PROFESSIONAL EXPERIENCE

L3 Harris

Software Developer Intern

Greenville, Tx

January 2023 – August 2023

- Worked on fourteen assignments that were a part of a larger project of updating the operating system to the newest version of RedHat. With help of team members, we completed the full upgrade three weeks prior to expected
- Predicted hours needed with three other team members for budgeting of assignment which involves scanning projects for security requirements. Accurately predict hours of work to request a budget to the manager
- Created a python project to test 1553 data that is going into a preexisting program. This project allowed the team to test locally instead of relying on system engineers. This helps the team's productivity as well as save systems engineer time

EAI Education

Inventory Specialist

Dallas, Tx

June 2021– August 2021

- Managed communication with freight company to schedule and direct trucking services to deliver school supplies from airport to school destination; successfully executed shipping and logistics of over \$400K worth of supplies
- Led an inspection team to evaluate and assess inventory to ensure all orders of requested items were accurate and same as delivered items; detected \$100s of faulty orders and resolved issues by reordering and delivering updated orders

KD College Prep

Shift Leader

Coppell, Tx

June 2018 – July 2020

- Provided excellent customer service to students and parents including greeting customers, booking classes, and answering telephone calls
- Trained 5 new hires on job activities, led by example through shadowing opportunities, updated manual to reflect better training processes; improved new hire productivity in recurring tasks and customer service

LEADERSHIP

Christ United Youth

Youth Leader

College Station, Tx

August 2021 – Present

- Plan weekly meetings with co-volunteer to develop fun activities and lessons based on students' personalities and interest, resulting in 40% growth of students in group due to interest in planned activities
- Guide group through lessons to highlight and teach life skills such as conflict resolution, working with authority, and leadership; utilized personal experience to share and connect with students

Beta Upsilon Chi

Brotherhood Chair, Member

College Station, Tx

August 2021 – May 2022

- Brainstorm, organize and advertise different events for fellow members staying within a \$1000 budget by surveying past and present members and reaching out to other organizations to learn about successful events
- Prepared weekly meetings for family group adhering to participants' schedules and creating agenda for the purpose of monitoring academic and social/emotional standing of members; provided positive and beneficial support resources for all 5 group members
